

# STAKEHOLDER LEADERSHIP ACCELERATOR PROGRAM

Equip your organization to lead within the new stakeholder economy—meeting some of the most profound challenges of our time and becoming more purposeful and profitable in the process.

- > Develop strategies for long-term value creation amongst diverse stakeholders.
- > Intentionally navigate tradeoffs between stakeholders, increasing trust even when all parties don't get exactly what they want.
- > Shift traditionally adversarial relationships—such as competitors and suppliers—into synergistic partnerships.
- > Engage your workforce by aligning their work to deeply held values and aspirations.
- > Embed innovation processes as a central feature of your organization, increasing agility and resilience in the process.
- > Develop a systems approach to persistent organizational challenges.
